## **Boeing Stearman Homecoming Tour 2021 (BSHT) making adjustments due to COVID**

[www.Stearman-Homecoming.com](http://www.Stearman-Homecoming.com)

For a year a group of international pilots and entrepreneurs have worked hard on planning a five months tour throughout the USA with 1940's Boeing Stearman biplanes.

As a reminder, the purpose of the tour is twofold. One, showcase the Stearman, its importance and its history. Second, we want to inspire a new generation to the wonders of flight: fun, excitement and personal enrichment.

Like many other events, COVID has affected our tour. Uncertainties and travel restrictions has caused us to make significant adjustments.

While details are still being formed, the 2021 BSHT is planning for:

- A scaled down routing that will focus on specific events
- The partnership with the Wings of Inspiration foundation will continue, and the performers will join the Stearman tour and perform at select hospitals and schools

The Board and their team members are convinced that the mission and vision behind the Tour are important and future proof. We will continue to plan the national tour and have our eyes on 2022.

The Board of Directors of the Boeing Stearman Homecoming Tour
